VERITAS EXCEL FEATURES

LED Keypad

LCD Keypad

Plastic Flush Mount Keypad

LCD Keypad

The *Veritas Excel* comes complete with an LCD keypad for simplified programming & operation. A further 5 keypads can be added onto a system, with a selection of LCD, LED & flush mount keypads available.

The *Veritas Excel* LCD keypad offers the following benefits:

- High definition 32 character LCD screen
- Programmable banner text, user & zone names
- Intuitive menu system
- Directly accessible 250 event log

8 Fully Programmable Zones Plus Tamper

The *Veritas Excel* features 8 fully programmable zones plus an additional global system tamper. Each zone operates in either EOL or single pole mode & can be programmed to any of 8 different zone types ensuring exceptional system flexibility.

8 Channel Communicator Interface with Line Monitor

With an on-board 8 channel communicator interface, the *Veritas Excel* can be used in conjunction with other signalling equipment as part of an ACPO compliant monitored alarm.

Universal Programming Platform

The *Veritas Excel* utilises the same intuitive programming platform as the rest of the *Veritas Series*, ensuring instant product familiarity across the range.
